AFTERNOON PROGRAMME

**The Idle Rich..... Sliding Into Digital
by Leo Rich ARPS DAGB APAGB EFIAP/g**

Having put himself through “the Mill” in trying to catch up with technology and going digital, Leo thought he would produce his first projected digital image talk outlining some of the pitfalls experienced along the way. This was done solely to make those poor demented creatures who have trodden the same path realise they were not alone. Still being refined this talk will probably leave you in tears – or you will go home feeling smug that your grasp of the digital world is far better than his!
